WHAT IF SHE HAS A CANOPY BED WITH A MAKEUP TABLE, A FULL DRESSER, AND A LIVE-IN MAID?

TRANSLATION NOTES

COMMON HONORIFICS

no honorific: Indicates familiarity or closeness; if used without permission or reason, addressing someone in this manner would constitute an insult

***-san*:** The Japanese equivalent of Mr./Mrs./Miss. If a situation calls for politeness, this is the fail-safe honorific.

***-sama*:** Conveys great respect; may also indicate that the social status of the speaker is lower than that of the addressee

***-kun*:** Used most often when referring to boys, this indicates affection or familiarity. Occasionally used by older men among their peers, but it may also be used by anyone referring to a person of lower standing

***-chan*:** An affectionate honorific indicating familiarity used mostly in reference to girls; also used in reference to cute persons or animals of either gender.

***-senpai*:** Used to address upperclassmen or more experienced coworkers.

***-sensei*:** A respectful term for teachers, artists, or high-level professionals.

K-ON!

The title ***K-ON!*** comes from the Japanese word "***kei-ongaku***," meaning "light music" in the sense of casual or easy listening (i.e., not serious or innovative as in serious classical or jazz). In the context of school clubs in Japan, the term "***kei-ongaku-bu***" ("light music club") usually contrasts with "***ongaku-bu***" ("music club") in that it focuses on popular forms of music (pop, rock, folk, etc.) where the latter focuses on symphonic and choral forms

kakifly

The author's name, "kakifly," comes from the Japanese word "***kaki-furai***," meaning "fried oysters."

Yen Conversion

A general rule of thumb to use for converting Japanese yen to American dollars is ¥100 to 1 USD.

PAGE 17

Manga Time Kirara

The magazine Mio is sleeping on (and which appears at other points in the book) is the original home of the ***K-ON!*** manga in Japan, published monthly by Houbunsha. There are several offshoot magazines in the ***Manga Time Kirara*** line, most of which focus exclusively on manga in the four-panel format, like ***K-ON!***

PAGE 21

Rumors

It is said in Japanese culture that sneezing means someone is talking about you at that moment. This piece of folk wisdom manifests as a common trope in manga and anime as well.

PAGE 30

Drawing a person on the palm

A piece of Japanese folk wisdom that states that in times of stress and tension, drawing the character for "person" (which can be seen on Mio's palm) three times and then pretending to "swallow" the person will ease the fear. While distracting oneself from tension in this way might simply be a placebo effect, the phrase "to swallow a person" (***hito o nomu***) means to overpower or overwhelm another, implying that this figurative action will help one overcome that fear.

PAGE 31

Autograph board

Japanese autograph boards (***shikishi***) are square-ish paper boards of a heavy stock, usually with one light side and a colored back (the name ***shikishi*** means "colored paper") that are commonly used for autographs today, but once were meant for poems and fine art. The large size and fancy, heavy feel make them appropriate for displaying autographs from a favorite artist or celebrity.

PAGE 33

Dzeko

A reference to Edin Džeko, a Bosnian soccer player who plays for Manchester City.

PAGE 34

Tsukkomi

The modern standard for Japanese humor consists of ***boke*** and ***tsukkomi***, which are the "goof-off" and "straight man," respectively. Many jokes, not just in stand-up comedy but in manga and anime as well, start with an absurd statement or observation (the ***boke***) followed by a forceful correction rectifying that nonsense (the ***tsukkomi***), often punctuated with a physical smack. Ayame is clearly making an impromptu joke by pretending to be a foreigner seeing a ***tsukkomi*** in person for the first time.

PAGE 40
Job Well
A play on words. "Part-time job" in Japanese is actually a loanword—***arubaito*** (from the German ***arbeit***)—and the title of the magazine is "Aruba-ido," where ***ido*** means "well."

PAGE 42
Shiso
A leafy green plant that is often used as garnish (as a "holding tray" for wasabi, for example) but is sometimes eaten as well. A variety of savory snacks utilize shiso as a primary flavor.

PAGE 55
Pucky
A parody of the famous stick-shaped candy, Pocky. The classic form/flavor of Pocky is a pack full of long biscuit sticks that have been dipped in chocolate.

PAGE 58
Overheating the brain
The Japanese word ***chienetsu*** ("intelligence fever") is the term for what is called "teething fever" in English, the period occuring around age one that an infant becomes susceptible to illness as the mother's antibodies wear off. Both terms stem from the developments often seen around this time—a baby's first teeth coming in and showing his or her first signs of intelligence. However, the term ***chienetsu*** is also used in a colloquial, humorous sense to mean a headache or fever caused by thinking too hard.

PAGE 64
Harumi-neechan
A parody cameo of the Harumi character by Kakifly's fellow ***Manga Time Kirara*** artist Daioki. Daioki's series is actually called ***Harumi Nation***, but in this case was turned into ***neechan***, meaning "big sister."

PAGE 70
Maimo
This is probably portmanteau of ***umai*** (yummy) and ***imo*** (potato or yam)

PAGE 88
Guitar Body
Electric guitars are almost always composed of two major parts: the neck and the body. However, the body itself can be made from one to three (or potentially even more) pieces of wood Due to the dampening effect of the glue used to hold the pieces together and the loss of natural resonance when it's not made of a single unbroken piece of wood, some people claim that a single-piece body sounds "cleaner," and the need for a larger piece of wood can make single-body types more expensive. However, it generally just comes down to personal taste.

PAGE 103
Miso Soup
Miso soup is an indispensable part of the traditional Japanese breakfast, but as a counterpoint to Ritsu's elegant speech, it seems far too plain and unsophisticated. It's a bit like swirling a fine wine glass full of orange juice.

PAGE 104
3-B Gummies
A likely parody of classic long-running high school drama TV series ***3-nen B-gumi Kinpachi-sensei*** ("Class 3-B Kinpachi-sensei"), although the product name on the package is somewhat obscured. The joke comes from the homophones of ***gumi***, (or ***kumi***) meaning "class," and ***gumi***, a "gummy" candy snack.

PAGE 116
Yakisoba
Literally meaning "cooked ***soba***," this tasty dish of stir-fried noodles with pork, cabbage, and ginger is a common summertime meal, especially at outdoor festivals. The noodles are served as-is rather than in a broth, making them very similar to chow mein. Although it has ***soba*** (buckwheat noodles) in the name, ***yakisoba*** is actually made from flour in most instances.

PAGE 120
Tsundere
A character archetype often seen in contemporary manga and anime typified by a normally aggressive and standoffish manner that eventually reveals a caring side underneath, usually in a moment of weakness. The word itself is a combination of ***tsun-tsun*** ("spiky" or "aloof") and ***dere-dere*** ("sappy, lovey-dovey"). Akira acts like a ***tsundere*** toward Yui throughout the book, and in previous volumes, Azusa fit into this archetype as well.
